UPDATE 01 22 2022

To our customers, vendors, and employees,

The health and safety of our employees, customers, vendors, and communities is very important. We are encouraging our employees to follow recommended best practices including frequent hand washing and staying home and being tested if they are experiencing symptoms consistent with a viral infection and to seek medical care to determine when it should be safe to return to work.

Due to multiple recent infections, we are reinstating our original Visitation Policy as detailed in our Coronavirus Policy. As we are not open to the public, we are restricting access to all visitors, **other than delivery personnel**, and request that they limit contact to email or phone for the foreseeable future and have posted this request at all entrances.

Please contact us by email or phone at 434 525 4120 and we will do our best to accommodate any request or need for information.

Thank You,

Clay Leath
President
