To our customers and employees,

I want to convey that we are closely following the effects of the Coronavirus and the impact that it could potentially have on our collective health and business concerns.

What we have working in our favor to hopefully minimize exposure here at L&R is:

We are not open to the public and as we are an ITAR facility, we are restricting access to all visitors, other than delivery personnel, and request that they limit contact to email or phone during this time and have posted this request at all entrances

Our 47,800 sq.ft. Manufacturing area and 10,000 sq.ft. of Offices allow for working conditions of our 34 employees spread over two shifts to have adequate personal distance space.

We are stepping up our efforts in disinfecting common areas and items like door handle sets etc. that could be exposed to viruses.

The health and safety of our employees, customers, and communities is very important. We are encouraging our employees to follow recommended best practices including frequent hand washing and staying home if they are experiencing symptoms consistent with a viral infection and to seek medical care to determine when it should be safe to return to work.

Through it all, we remain committed to maintaining our business operations and have established procedures in place to ensure we are doing everything to stay up and running. We will continue to monitor the Coronavirus situation as it develops and provide additional updates as appropriate.

If you have any questions, we would be happy to discuss our emergency preparedness and contingency plans with you in more detail.

Thank you for your continued trust in L&R and know that we are doing what we think to be right to handle the concerns of our two biggest assets, our employees and their families and our customers. Today and always, we are committed to balancing responsibility and meeting our customer's needs.

Sincerely,

*Clay Leath 3/17/2020*
